

AMP AWARDS PROGRAM

Recognition for Your Community

The AMP Awards Program provides a great opportunity to recognize outstanding projects and people in your community. Let your peers and community know about your hard work and dedication.

2024 AMP Awards Program

American Municipal Power, Inc., (AMP) is the nonprofit wholesale power supplier and services provider for 132 Members, including 131 municipal Members in the states of Indiana, Kentucky, Maryland, Michigan, Ohio, Pennsylvania, Virginia, West Virginia; as well as the Delaware Municipal Electric Corporation, a joint action agency with eight Delaware municipal members. Combined, these Member utilities serve approximately 650,000 customers. AMP Members receive their power supply from a diversified resource mix that includes wholesale power purchases through AMP and the open market and energy produced at AMP and Member-owned generating facilities utilizing fossil fuel, hydroelectric, solar, wind and other renewable resources. For additional information, visit AMP's website at www.amppartners.org.

WHY SEEK AN AMP AWARD?

The AMP Awards Program provides a great opportunity to draw attention to outstanding projects and people in your community. This is one way to let your peers and community know about your hard work, dedication and commitment to your local electric system.

Members can nominate themselves or others for the Electric System Sustainability Award, Hard Hat Safety Award, Innovation Award, Public Power Promotion Award, Safety Award, Service Distinction Award, Seven Hats Award and System Improvement Award. Simply complete one or more of the nomination forms and submit them by June 14. Forms are also available digitally on the Awards Program page of the AMP website at www.amppartners.org. Details about each award are located on the award nomination forms.

Award recipients will be recognized at the 2024 AMP Annual Conference, Sept. 30–Oct. 2. After the conference, a news release will be sent to the local media of those communities that received an award.

**Deadline for all AMP Awards nomination submissions:
June 14, 2024**

ELECTRIC SYSTEM SUSTAINABILITY AWARD

This award recognizes utilities that have made significant efforts in sustainability. Sustainability can be defined as understanding the interconnections among economy, society and environment.

Eligibility:

- Project must have been completed prior to May 1, 2024.
- Only one project per Member may be submitted each year.
- Project can only be submitted for an award one time.

Criteria:

- Projects should demonstrate a balance between economic, environmental and social considerations while also reflecting a practical business approach. The latter focus may be demonstrated by highlighting how the project maximizes the electric system's business opportunities and/or minimizes the electrical system's business risks.

Recognition:

- More than one award can be given each year.
- Awards will be presented to Member(s) with the best long-term project(s) designed to enhance the sustainability of their electrical systems.

Christy Ramey, Marshall Assistant to the Electric Director/Purchasing Agent, left, and Kevin Maynard, Marshall Director of Electric Utilities and AMP Board of Trustees member, accept the 2023 AMP Electric System Sustainability Award.

FORM HERE**

HARD HAT SAFETY AWARD

Derek Schultz, Bryan Director of Utilities, left, presents a Hard Hat Safety Award to Kevin Rau, Bryan Lineworker.

This award recognizes employees in each Member community who demonstrate safety at all times.

Eligibility:

- Members can nominate one employee from their electric distribution department.
- Members with generation can also nominate one employee from their electric generating division.

Criteria:

An electric utility employee who:

- Adheres to on-the-job safety procedures;
- Promotes electric safety within their department; and
- Is 100% safety conscious.

Recognition:

- More than one award can be given each year
- Recipients are nominated by the municipal electric system's director or superintendent and approved by the AMP safety staff.
- A plaque will be presented to the individual recipient at a safety meeting in their community.

FORM HERE**

INNOVATION AWARD

This award recognizes municipal utilities that have completed an innovative or unique project to better serve their customers. Innovation is the introduction of something new — a new idea, device or method.

Eligibility:

- Project must have been completed prior to May 1, 2024.
- Only one project per Member may be submitted each year.
- Project can only be submitted for an award one time.

Criteria:

- Project should utilize new technology or existing technology in a unique way.
- Creative uses of technology or new ideas within the electric utility industry will be considered.
- Research or pilot style programs submitted to DEED or EPRI may be eligible.
- One award can be given in each division:
 - Division 1 – 0 to 999 meters
 - Division 2 – 1,000 to 4,999 meters
 - Division 3 – 5,000 to 8,999 meters
 - Division 4 – 9,000 or more meters

The Westerville Electric Division was awarded an Innovation Award in 2023 for the deployment of a compact insulated spider aerial lift, which provides easier access to residential backyards

PUBLIC POWER PROMOTION AWARD

Coldwater Board of Public Utilities, as part of their Project Engage, participated in community events to rebrand their marketing department.

This award recognizes utilities for their promotional efforts in marketing, consumer awareness and branding.

Eligibility:

- Project must have been completed prior to May 1, 2024.
- Only one project per Member may be submitted each year.
- Project can only be submitted for an award one time.

Criteria:

- Project should demonstrate public power being promoted in a creative or impactful way.

Recognition:

- More than one award can be given each year.

FORM HERE**

SAFETY AWARD

This award recognizes municipal utilities for their safety performance and encourages municipalities to improve their present safety program.

Eligibility:

- Safety Awards will be given to systems with no time loss due to reportable accidents.
- Safety Commendations will be given to systems with less than one percent time loss.
- Reporting period runs from Jan. 1–Dec. 31 2023.
- To determine time loss, divide the total number of hours away from work and restricted by the total work hours of exposure for the period of Jan. 1–Dec. 31, 2023.

$$\text{Time loss} = \frac{\text{Total number of hours away from work and restricted}}{\text{Total work hours of exposure for the period}}$$

Criteria:

There are two categories:

- Transmission/Distribution
- Generation

Recognition:

- More than one award can be given each year.

Jim Eberly, AMP Manager of Member Training and Safety, left, presents an AMP Safety Award to Johnnie Burns, Yellow Springs Village Manager.

SEVEN HATS AWARD

Harold Pudliner, Weatherly Borough Manager (center), is presented with the AMP Seven Hats Award during a surprise ceremony.

This award recognizes a utility manager who serves a smaller community, and whose management responsibilities extend well beyond the scope of a manager in a larger system who has a larger staff. The award parallels American Public Power Association (APPA) requirements. The AMP recipient will be nominated for the APPA Larry Hobart Seven Hats Award.

Eligibility:

- Any superintendent or manager of an AMP Member utility that serves 2,500 electric meters or less.

Criteria:

- Utility manager who serves a smaller community and whose management responsibilities extend well beyond the scope of a manager in a larger system with a larger staff.
- Nominees must possess desirable qualities and skills in the following areas:
 - Planning and design
 - Administration
 - Public relations
 - Field supervision
 - Accounting
 - Personnel or employee direction, relations, policies, etc.
 - Community leadership
- Nomination form to be completed by local elected official.

Recognition:

- Only one award can be given each year.

SYSTEM IMPROVEMENT AWARD

This award recognizes utilities that have made a significant improvement in electric service and reliability to their customer-owners.

Eligibility:

- Project must have been completed prior to May 1, 2024, including any multi-year projects.
- Routine system maintenance such as tree trimming, single pole or individual transformer replacements will not be considered.
- Only one project per Member may be submitted each year.
- Project can only be submitted for an award one time.

Criteria:

Project should demonstrate a significant improvement in service and reliability to customer-owners.

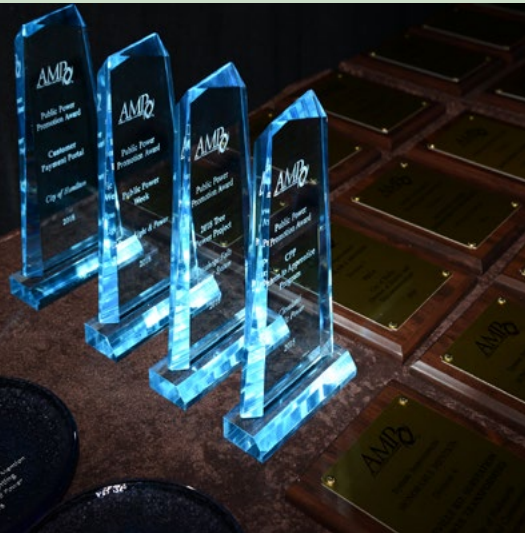

- One award can be given in each division:
 - Division 1 – 0 to 999 meters
 - Division 2 – 1,000 to 4,999 meters
 - Division 3 – 5,000 to 8,999 meters
 - Division 4 – 9,000 or more meters

Jim Eberly, AMP Manager of Member Training and Safety, left, presents a System Improvement Award to Kevin Mercer, Pioneer Superintendent.

AMP SERVICE DISTINCTION AWARD

This award recognizes employees of Member public power utilities, partners or consultants who have made significant contributions to public power and supported the mission, vision and values of AMP. Special consideration is given to individuals dedicated to the betterment of public power communities who have retired from service or have announced that they will be retiring soon.

Criteria:

The AMP Service Distinction Award shall be limited to individuals who have met all or a majority of the criteria below as determined by the AMP Board of Trustees Nominating Committee:

- A distinguished public power career; or a career with significant contribution to public power;
- Members, partners or consultants who have made significant contributions to public power and supported the mission, vision and values of AMP; and
- Special consideration will be given to individuals dedicated to the betterment of public power communities who have retired from service or have announced that they will be retiring soon.
