# About American Municipal Power, Inc. (AMP)

Formed in 1971, AMP is headquartered in Columbus, Ohio, with about 210 employees at its headquarters and generating facilities.

**AMP is the nonprofit wholesale power supplier and services provider** for more than 130 Members in the states of **Indiana, Kentucky, Maryland, Michigan, Ohio, Pennsylvania, Virginia, West Virginia**; as well as the Delaware Municipal Electric Corporation, a joint action agency with eight **Delaware** municipal members. Combined, these Member municipal electric utilities serve approximately 661,000 customers.

The organization is governed by a Board of Trustees that consists of 22 AMP Members – 21 elected by the Members or subgroups of Members, and DEMEC, on behalf of its nine member systems. Each elected Member then appoints a person to represent it on the Board.

AMP was formed in 1971

# Why Become an MEP?

The AMP MEP program provides industry vendors and consulting firms with the opportunity to present their products and services to AMP Member communities. Participants in the MEP program gain access to AMP's Member Directory and are permitted to use that information to create a database for future marketing activities. Furthermore, all participants in the MEP program are permitted to disclose that they are an MEP and are given the opportunity to showcase their products and services at AMP events, such as the AMP Annual Conference and AMP Technical Services Conference.

## BENEFITS:

- 1 AMP Member Directory:** Access to AMP's digital Member Directory. The directory provides civic and technical information for more than 130 Members in the states of Indiana, Kentucky, Maryland, Michigan, Ohio, Pennsylvania, Virginia, West Virginia; as well as the Delaware Municipal Electric Corporation, a joint action agency with eight Delaware municipal members.
- 2 Company Listing:** List your company along with a brief description of your products/services in the AMP Member Directory.
- 3 Discounts:** Receive a discount on registration at the AMP Annual Conference (fall) and AMP Technical Services Conference (spring).
- 4 Exhibit:** Gain the opportunity to exhibit at the AMP Annual Conference and AMP Technical Services Conference.
- 5 Sponsorship:** Participate in sponsorship opportunities at AMP Annual Conference and AMP Technical Services Conference.
- 6 Website:** Link your company's website on AMP's website.
- 7 Publications:** Receive AMP's weekly *Update* newsletter.

Participating in AMP's Municipal Electric Partner Program has made PowerSecure a valuable partner to AMP and its Member communities. Working with these communities, understanding their needs, and providing solutions has been invaluable for PowerSecure, AMP, and its Members as they continue to navigate the evolving energy industry.

**Robert D. Tugwell**  
Vice President Public Utilities,  
PowerSecure, Inc.

# 2024 AMP Technical Services Conference Program and Exhibit Highlights

In 2024, many companies took the opportunity to meet with AMP Members. The exhibiting opportunity allowed them to showcase their products and build relationships with municipal electric utility managers, superintendents and technical staff from multiple states.
